# Power Evangelism

Mica Keller

---

## **Class Objectives:**

Our desire for this course is for each and every student to walk closer with the Holy Spirit and out of the overflow of God's love share the gospel in everyday life. Every student will come away with a deeper understanding of partnering with Holy Spirit as a co-laborer in the harvest fields. We will discover God's great love for us in a more intimate way and out of that place pour out to those we are ministering to. It's the Holy Spirit's delight to glorify Jesus and because of that, every student will come away confident in "Christ in [them] the Hope of Glory." It is essential to our identity that we understand that the fruit of evangelism is not our responsibility, but upon the Holy Spirit. Our part is to be reckless seed throwers, sharing the gospel everywhere we go. It is not based on our ability or good works, but upon God's love being poured out in us and overflowing to those around us.

## **Fundamentals for growing in Evangelism**

Creating a lifestyle of worship and gratitude.

Cultivating our understanding of Fasting and prayer.

Listening for & asking the Holy Spirit questions.

Meditating in the Word daily.

Habitually making evangelism a part of our daily routine.
